

Growth
Innovation
Legacy

Gorani Industries Limited
Company Profile 2022

*"Innovate far beyond imagination
and leave behind a legacy
to dream, design and deliver."*

THREE PILLARS OF

GROWTH • INNOVATION • LEGACY

At Gorani Industries Ltd. our purpose is to

Grow leaps and bounds, **Innovate** far beyond imagination and leave behind a **Legacy** that not only we as a company but our customers are proud of as well. We dare to dream, design and deliver like no other.

Our company's primary focus has always been innovation and deployment of new designs and technology to improve the production value and quality of our products along with the experience for the customers while continuing to raise the bar on product quality. And in doing so our company has single-handedly changed the way people look at kitchen appliances. This allows us to meet the needs of the manufacturing industry in the field of appliances. By introducing the most advanced as well as efficient industry-leading appliances that steer clear from the 'one size fits all concept, our company gives the customers a comprehensive and wide range of products to choose from. Our products are not just technologically advanced but are also the answer to the latest needs and trends of the ever-changing market.

With innovative as well as versatile products, our company has been working tirelessly towards transforming the future of appliance manufacturing and paving the way for an unforgettable legacy not just for the customers but for the home appliances industry as well. We at Gorani Industries Ltd. strongly believe in effectively contributing to a more sustainable future and we will continue to produce dependable products.

GORANI INDUSTRIES LTD.

OUR HERITAGE

WHO WE ARE

Twenty-six years ago in 1996, Gorani Industries Ltd. began as the manufacturer of Nutan Kerosene Wick Stove that became a household name in the blink of an eye. Since then our company has gone on to become a pioneer in India's industrial circuit of kitchen and home appliances. Over the years, we have evolved our manufacturing process and product selection with ground breaking innovations both in terms of technology and style and continue to dominate the industry in India. We especially focus on optimizing the manufacturing of our products and have built our plant around that ideal process. Our company specializes in manufacturing of ***Kitchen Chimneys, Gas Hobs, Gas Stoves and Gas Geysers***. That more is providing the very best customer service, customer experience, quality products and company culture.

Sanjay Gorani and Nakul Gorani, our founders, continue to be the predominant source of inspiration. Running a responsible company is anchored in our values and beliefs from the very beginning. These very values have helped us become one of the leading manufacturers of kitchen and home appliances in the country.

Gorani Industries Limited started its association with **BLOWHOT** 3 years ago, our company has diversified into developing world-class products that stand out not just for their functionality but also for their aesthetics, adaptability and meet the emerging needs of modern India. With its design excellence, top-notch quality and a well-established network of dealers and distributors, has changed the way people look at modular kitchens in the country.

Listed on the Bombay Stock Exchange and the first in India to get an ISI certificate for gas geysers, we at Gorani Industries Ltd. prioritize the safety of our customers and are well-equipped with all the necessary certifications.

Our primary manufacturing factory unit is situated on Sanwer road in Indore and our company's presence can be felt all over Central to North as well as South India.

OUR VALUES

WHAT WE
BUILD ON

As it has been from the onset, our company believes in the pursuit of doing good and we are committed to our principle that quality can never be compromised. The company recognizes its corporate and environmental duties and responsibilities towards health and safety of its employees, with high efficiency and best in class workspace and for its customers with its products and services that are as innovative as they are necessary.

We at Gorani Industries Ltd. believe that we can and must positively impact all the people we cater to. We care about the quality assurance we have on our customers, our people, and our surroundings.

These values create the very foundation for our actions and guide everything we do, including how we interact with our employees, our customers and the community, as well as our distributors and business partners. As we grow, our processes, strategies and designs may change, but these core values will undoubtedly always remain the same.

INTEGRITY QUALITY

MERITOCRACY

OUR DIRECTORS

MR SANJAY GORANI

The visionary leader who laid the foundation of Gorani Industries Ltd. in 1996 along with his brother Mr. Narendra Gorani, is the driving force of where Gorani Industries Ltd. has reached today. From getting the first ever ISI certificate for Gas Geysers, to becoming the leading manufactures of Gas stoves and Gas Geysers, it was Mr Sanjay Gorani's innovative thinking and modern approach to design and research that paved the path to success for Gorani Industries Ltd. Even before the foundation of Gorani Industries Ltd. Sanjay Gorani joined Super Steel which was one of the leading manufacturer of Nutan Kerosene Wick Stove and took that business to newer heights. After embarking his knowledge and experience of 30 years Mr Sanjay Gornai put all his focus on developing new technologies and products that will help in revolutionising the Kitchen Appliance Industry.

MR NAKUL GORANI

The next generation leader of Gorani Industries Ltd., Mr Nakul Gorani brings the modern way of thinking on the table. With a degree in engineering Mr Nakul Gorani with help of his knowledge and education has developed new, cost effective and high efficiency manufacturing techniques and machinery. With that the production capacity of Gornai Industries has grown many folds. Mr Nakul Gorani is also playing a vital role in diversifying the product range for Gorani Industries Ltd.. With more than 7 years of experience in the industry Nakul Gorani is crafting new dimension for Gorani Industries Ltd..

VISION & MISSION

WHAT WE
STRIVE FOR

We work tirelessly to make versatile products with bold designs which are energy-efficient, low maintenance and high on build quality. We as an evolutionary company firmly believe that manufacturing high quality product should not be a chore but a holistic experience modelled on fulfilment and contentment and aim to help our customers realize the same.

Our commitment to safety, sustainability and standing out with cutting-edge innovations will pave the way to becoming essential to our customers by providing a well-designed wide range of products and hassle-free services. Our mission is to manufacture the best and the most high-quality products as well as revolutionize the kitchen experience for as many people as possible.
